

FACT: We use an unbiased, independent rating system called MERV to compare filters. A higher MERV indicates better performance. MERV was developed by the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE), an impartial, widely-recognized authority on air filtration.

dust/dirt

pollen

# Pro Series™

## AIR FILTER

FILTERS LARGER AIRBORNE PARTICLES

Lasts up to 3 Months

28 times more effective than fiberglass filters

Filters airborne allergens like dust, dirt, and pollen

Reduces dust & dirt on surfaces, countertops, and furniture

Reduces dust & dirt buildup in Air Ducts and in Air Conditioner and Furnace system

Minimizes energy costs by keeping Air Conditioner and Furnace system clean & efficient

100% Synthetic filter media will not support the growth of Bacteria, Mold, Mildew, or Fungi in normal use

• Fiberglass Free
